

WeekReport_2019-05-27_06-02_E

Week Overview

- $8 + 8 + 8 + 8 + 6 + 2 + 2 = 42$ hours

Project: GraphLayout

- this week I solve the bugs in Tuesday and I think successfully merge the FM3 code into our project
- The visualization effect is similarity to FM
- some evaluation parameter is not greater than the previous. In Zhu's opinion, because of some tricks, evalutaion is not very important

G.js

- Pan rewrite the whole structure based on our old code
- this week mainly work on the test code

SciVis Course

- This week write a simple d3 layout

Other

- prepare for the English debates

Short-term perspective

Work	deadline	Tip
write out the test code	Friday	
solve the word cloud part in the code	Friday	

Long-term perspective

Work	deadline	Tip or Progress
GraphLayout	6.1	modify the multilevel
G.js	2021 year
